Sept. 4, 1990

Dear Sir:

After reading Ethyl Corporation's information on HiTEC 3000, I wish to add my support for approving use of this additive in the U.S. While its use would generate only a relatively small decrease in oil consumption, I believe that progress toward significant reductions in consumption can be achieved through a large number of such small steps. The emission of manganese into the environment seems to be a small price to pay for a large reduction in tailpipe emissions.

Very truly yours,
